

Year One Weekly Newsletter

24 October 2016

Hello Everyone,

Next term our topic will be 'Fire and Ice'. We will begin the new term learning about 'The Great Fire of London' and how to find information about the past. We will then be moving onto learning about The Arctic and Antarctica. Children will learn about the animals that live there and how they are adapted to survive in such cold temperatures. We will also be using our Geography skills to find out where The Arctic is.

As part of this topic we will be visiting The Deep in Hull to find out more information about penguins. More information about this trip will be given out during the first week back to school.

Maths Challenge!

We have been learning pairs of numbers that make 10. Encourage children to play a 'my number, your number' game. The children are given a number between 0 and 10. How quickly can they work out the number that you need to add to get 10? How many of these facts can they work out in one minute?

Writing Challenge

We would like to hear about what you have been doing in your holiday! Please encourage children to tell us about something fun that they did in their half term holiday. They could draw a picture to match their writing. We will be sharing some of the writing after the holidays.

Reminders

- Today is the last school day for children as we break up for half term. The children return to school on Tuesday 1st November.
- We have found Class Dojo to be a really useful way of communicating between home and school and letting you get a picture of what your children are doing in class. Thank you for all of your positive feedback from our weekly posts.
However if you have any important messages or concerns about your child or their school work please see the teacher personally at the beginning or end of the day so that these matters can be more effectively dealt with.
