

## Year 1 Autumn 1 Fighting Fit!

### Science

This topic has a science focus. Through role play, books and videos the children name and label the basic parts of the human body and discuss what we must do to make sure we stay healthy. The children also compare their structures to those of other animals and use books, research and videos to group them.

### History

The children experience life as a soldier in the Crimean war and role play what it was like to be one of Florence Nightingale's nurses. The children look back at the life of Florence Nightingale and the impact she has had on our health system.

PSHE: Learning about friends/playground games and taking turns.

ICT: Learning to type our names with a keyboard. Learning and understanding the importance of internet safety.

**Literacy:** ongoing daily guided reading session, daily phonics session, hand-writing, grammar and composition taught through daily literacy hour.

### Cross curricular Literacy

- Writing thank you letters to Florence Nightingale
- Reading the story "This Moose Belongs to Me", looking at their habitat and diet.
- Writing simple sentences about the structure of the body.

**Maths:** ongoing daily maths lessons will focus on numbers, counting, place value and calculation. We focus on:

- Baking subtraction and addition
- Identifying and ordering numbers to 20
- Using more than and less than language
- Number bonds to 10

### Creative.

The children take part in weekly ongoing music, art and baking sessions. We focus on applying mathematical language in our baking, looking at different artists in art and follow music express.
